

INTIMATIONS.

A. S. WATSON & COMPANY, LIMITED.
ESTABLISHED A.D. 1841.

MANUFACTURERS OF AERATED
WATERS.

OUR AERATED WATER MANUFACTORY
is replete with the best Machinery, embodying
all the latest improvements in the trade.

The greatest attention has been paid to
appliances for assuring purity in the Water
Supply, to secure which we have added a Con-
denser capable of supplying us with 3,000 gallons of
distilled water a day, and are now in a
position to compete in quality with the best
English Makers. Our Sweet Waters cannot be
surpassed.

The purest ingredients only are used, and
the utmost care and cleanliness are exercised in
the manufacture throughout.

FOR COAST PORTS. Waters are packed
and placed on board ship at Hongkong (prices,
and the full amount allowed for packages and
Empires when received in good order).

Counterfoiled Order Books supplied on applica-
tion.

COAST PORT ORDERS, whenever practicable, are despatched by first
steamer leaving after receipt of order.

Our Registered Telegraphic Address is,
"DISPENSARY, HONGKONG," and all signed messages addressed thus
will receive prompt attention.

The following is a List of Waters always
kept in Stock:—

PURE AERATED WATER

SODA WATER

LEMONADE

POTASIA WATER

SEITZER WATER

LITHIA WATER

SARSAPARILLA WATER

TONIC WATER

GINGERADE

No Credit given for Bottles that look
dirty or greasy, or that appear to have been
used for any other purpose than that of contain-
ing Aerated Water, as such Bottles are never
used again by us.

NOTICE TO CORRESPONDENTS.

Correspondents on Editorial matters should be
addressed to "The Editor," and those on business to "The
Manager," and not to individuals by name.

Correspondents are requested to forward their name
and address with communications addressed to the
Editor, not for publication, but as evidence of good
will.

All letters for publication should be written on our
side of the paper only.

Advertisements and Subscriptions which are not
ordered for a fixed period will be continued until
countermanded.

THE DAILY PRESS, No. 12.

SIXTH.

On the 26th September, the wife of FREDERICK
DOWDAN, of a son.

[1889]

The Daily Press.

HONGKONG, SEPTEMBER 27TH, 1889.

The most important subject dealt with at
Wednesday's meeting of the Sanitary Board
was that of the Pukfulam water supply and
the measures to be taken to prevent its
pollution by the washing of earth into the
reservoir. The decision arrived at cannot be
quite satisfied.

The matter is not to be altogether ignored, but is to be
dealt with in a half-hearted manner that
leaves, to say the least, a possibility of a re-
petition of the experience of last spring,
when the population was supplied with
diluted mud instead of water. Earth may
be, as Mr. HUMPHREYS says, to a certain ex-
tent a purifier, but, if so, most people would
prefer their water without the purifier. The
Surveyor-General is evidently alive to the
importance of the subject, and in this we
have some measure of security that an effort
will be made to prevent any further pollution
of the Pukfulam supply on a large scale.

but the Sanitary Board, as a body, did not
seem to appreciate the necessity of action so
fully as might have been expected. We
quite agree with Mr. HUMPHREYS that the
Board ought not to harass people more than
is absolutely necessary, but we cannot
endorse his implied assertion that the deposit-
ing of loose earth in the Pukfulam catch-
ment area is a right which has been enjoyed
from time immemorial. It is quite a recent
innovation and ought to be put a stop to
 forthwith. Mr. HUMPHREYS suggested two
other causes for the defilement of the Puk-
fulam reservoir besides the cutting of earth
by private persons. One of these was that
the torrent of rain we had early in the
season cut up the Crown lands in
all directions. Some small measure
of the pollution may have been due to
this source, but we think we are correct
in saying the landslip in the Pukfulam
valley were comparatively trifling. In any
case, the existence of any unavoidable cause
of pollution is no justification for inaction
with regard to avoidable causes. If
loose earth cannot altogether be excluded
from the reservoir, all means let the
quantity be reduced as much as possible.
The other cause mentioned by Mr. HUM-
PHREYS is the tree planting. But so far as
we are aware, no planting has been carried
on this year in that locality and the effects of
the disturbance of the earth by the digging
of the tree pits had expended themselves
long ago. It may or may not be desirable
that trees should exist in the valley, but
they certainly do not contribute to the
washing of loose earth into the reservoir.
The real cause of the pollution of the water
supply in the early part of the present year
was the washing down of the heaps of earth
which had been excavated in connection
with building operations and deposited in
such situations that when the heavy rains

came they were swept down into the reser-
voir. It is an imperative duty of the Go-
vernment and the Sanitary Board to see that
pollution does not arise from the same cause
next year. Whatever interests may be in-
volved, they must give way wholly and en-
tirely to the paramount necessity of pre-
serving the purity of the water supply. If
the existing law is not strong enough
to meet the case, then the very first
thing the Legislative Council ought to
do on reassembling is to pass mea-
sures arming the authorities with what-
ever additional powers may be required
if any equitable claims for compen-
sation can be established they must of course
be satisfied, but whatever cost the pur-
chase of the water supply must be maintained.
People may talk till doomsday of the in-
conveniences of the earth, but they will never
succeed in convincing consumers that mud
as good as water for drinking and potable
purposes. What the Sanitary Board pro-
poses to do is to inform persons tipping
earth that they will be expected to take
steps to prevent the earth being washed into
the reservoir. This is not sufficient. The
steps which private parties may deem ad-
equate may be very far from being so in
reality. We have the assurance of the Sur-
veyor-General speaking as a responsible
officer, that everything possible will be done
as regards Crown lands, which is as far
satisfactory, private ground to the discretion of the property is
the persons interested in the property is
full. It is the duty of the Sanitary Board
to see that the mischief is prevented, not to
wait until it has been done and then pro-
ceed against the parties who have caused it.

The total exports of tea from Cayton up to the
7th instant amount to 31,360,000 lbs.

The delivery of the French and American
mails was begun at 8.35 a.m. yesterday.

A special telegram to the Japan Gazette states
that the British fleet was to leave Hakodate on
the 17th September for Yokohama.

Owing to the arrival of two mails and press
of matter on our news columns we are compelled
to hold over several interesting articles.

The man charged with the theft of opium
from the steamer Japan, and with setting fire
to the vessel were yesterday committed for trial
by Mr. Robinson.

The Agents (Messrs. Butterfield & Swire)
inform us that the O. S. S. Co.'s steamer
Sardeson from Liverpool, left Singapore on the
24th inst., for that port.

We learn that at the annual general meeting
of the Hongkong St. Andrew's Society, which
had yesterday afternoon, it was unanimously
decided to celebrate St. Andrew's Day by giving
a Ball.

A telegram in the San Francisco Chronicle
stated that the 26th September.—The
Department of State had informed the
recent gift to His Majesty the King of
China for the use of the American Presbyterian
Mission of one of the royal palaces, together
with its extensive grounds and buildings.

Chinese secret societies have taken root in Java.
The Java Bode of the 13th instant admits as
much. Several of these organizations have
started at Semarang, and are particularly hostile
to each other as much as harm as possible.
The local Chinese headmen glaze over
the matter, but rumour has it that these societies
are branches of those at Singapore and Ilobo.

More cases of hydrocephalus in Singapore.
The Straits Times say:—A King, a native, was
bitten by a dog in the Sembawang district about
a month ago, and died on the 13th instant
from the effects of the bite. Another man who
was bitten by the same dog, and at the same
time as the biter, is now under treatment. The
dog was killed some time after the occurrence.

Yesterday at the Police Court, before the
Hon. H. E. Wodehouse, Chai Atuan appeared on
remand charged with stabbing a woman, a
woman taken, after which prisoner was
asked if he had any statement to make. He
replied that it was not true that he stabbed the
defendant. The prisoner was committed for trial
at the next Criminal Sessions.

The hand of the A. S. Highlanders will
play the following programme on the Barrack
Square this Friday evening, commencing at
7.30 p.m.:

"Hymn for the Bells of Bells".... Miller
Eames. "The old Guard".... Crook
Fulks. "Nimrod".... Quiggle. "Bank
Galop".... Flock.

The case of the Chinese fireman charged with
stealing at the fire in Queen's Road on Saturday
night was again called before Mr. Robinson at
the Police Court yesterday, when Mr. Robinson
said that he had no statement to make. He
replied that it was not true that he stabbed the
defendant. The prisoner was committed for trial
at the next Criminal Sessions.

On the 16th September, Joseph Hartfield,
an officer of the Saco-News, who had been
arrested on a charge of belling and wounding
the quartermaster of the Sakata-maru with intent
to kill, was again brought before Mr. J. J.
Eneida, Acting Assistant Judge, in H. E. M.
Court for Japan. The wounded man was
sentenced to 10 years' imprisonment for
the crime he had committed. The defendant's
bond, \$40, was extorted and a warrant was
issued, requiring him to stand trial. His
bond was released, and it had an statement to make
that he did not do it in self-defence.

The first Cricket match of the season will
be played on Friday, 27th September, at 2 p.m.
to-morrow (Saturday), commencing at 2 p.m.
to-day between the Stay-at-Home and the
Shanghai Team. The following are the
respective teams:—

STAY-AT-HOME TEAM.
E. J. Croom (Capt.).
H. A. Johnson, B. E.
W. H. D. D. T. E. Smith.
S. L. Party. T. E. Johnson.
F. M. Hartland. Capt. Butler.
Capt. Davidson, B. E. O. S. D.
H. L. Henderson, B. E. Capt. B. E.
E. G. Stiles. W. G. Waterhouse, R. E.
E. G. Young, R. E. G. Branwell (38th).
A. N. Other.

In connection with the status of the Chinese
in British Columbia, Consul Stevens, of Victoria,
in a report to the Department of State at
Washington, says:—"The number of this race,
formerly so great in the province, at one time
estimated at 10,000 or 20,000, has largely de-
creased, the present Chinese population, as given
from official quarters, being 5,000 to 6,000. Nearly
half of them, however, are in the city of Victoria,
which has practically a city. During
1888—not the two last months of 1887, & 1888—
spent in Vancouver on Oriental steamers.
Probably two-thirds of them had United
States customs return certificates and entered
the United States mostly at San Francisco.
During the same period according to the con-
tents of the Chinese news, 6,000 to 7,000
immigrants arrived in the city, 600 arriving
from the United States, and 5,400 from
China. These arrivals are part in the province
from China, news thereof recorded above.
The business of the Chinese firms has
increased, though very rapidly. Some
of the tree pits had expended themselves
long ago. It may or may not be desirable
that trees should exist in the valley, but
they certainly do not contribute to the
washing of loose earth into the reservoir.
The real cause of the pollution of the water
supply in the early part of the present year
was the washing down of the heaps of earth
which had been excavated in connection
with building operations and deposited in
such situations that when the heavy rains

came they were swept down into the reservoir.
